

Volume 17 Issue 03

March 2020

---

**Crew Meetings & Activities 2020**

Apr 25 mtg

May 1-3 Scottish Highland Festival in Decatur

May 23 mtg

June 12-14 Region 3 Summit

June 27 mtg

All above meeting are subject to change. Normally we meet at Shady Oaks BBQ at 3:00 p.m. on the dates above (unless otherwise mentioned.)

---

**XO REPORT/Communications Report**

Since we are all stuck inside, I thought this would help pass the time, at least for most of you for about twenty minutes or so. You'll probably figure it out before then. I have also included some bits and pieces of random things that you might find interesting and also finished the article from the last several months. Hopefully, this will help pass at least an hour of your time before you go back to your games/books/laptops/TV/etc. I, myself, am working on the afghans for Meals on Wheels that our CO delivers and some kids blankets for my Optimist club that we give to Ronald McDonald House each year.

Whether we meet each month or not, I will try and put something out there to keep our moral going. If anyone wants to contribute just off the cuff, feel free to email me your reviews, articles, etc.

Respectfully,  
R. Admiral Liz Goulet  
First Officer, USS *Sea Tiger*, NCC-2009  
**Newsletter articles to me for March by April 3**

## Alien Civilizations May Have Explored The Galaxy and Visited Earth Already, New Study Says. We Just Haven't Seen Them Recently

(Continued from February)

NASA/Chris Gunn

The Kepler telescope made leaps and bounds in the search for planets that might host life in our galaxy. In Earth's orbit today, the Hubble Space Telescope and Transiting Exoplanet Survey Satellite (TESS) are continuing the search. NASA is also building the James Webb Space Telescope which may be able to see as far through space and time as the Big Bang. It's slated to launch in 2021.

Of course, what would really improve scientists' ability to estimate the probability that we're alone in the universe would be more data on the speed or ranges of interstellar probes. A better sense of how long hypothetical alien civilizations last would be useful, too.

"We're in desperate need of some data points," Carroll-Nellenback said.

### Birthdays for next month:

April: Randal Hermes April 18

---

Since I was in charge of the activity for March I have prepared something to keep you busy for the next ten minutes.

### Seek and Find

Main characters from our Star Trek family of shows: Star Trek Original, Next Generation, DS9, Voyager and Enterprise

Kirk	Picard	Sisko	Janeway	Archer
Spock	Riker	Nerys	Chakotay	TPol
McCoy	Data	Dax	Torres	Phlox
Sulu	Worf	Bashir	Paris	Tucker
Chekov	Troi	Odo	Tuvok	Sato
Scotty	Crusher	Quark	Neelix	Reed
Uhura	Yar	Nog	Kim	Mayweather
	LaForge	O'Brien		
		Yates

## State Fair of Texas Mystery: What Happened to the Centennial Key?

Dallas(CBSDFW.com) In a building lined with memorabilia, where history can be found behind every day , there are artifacts packed away that some hope could shine light on an unsolved mystery that dates back to the Texas Centennial Exposition.

“This was not just a City of Dallas or Texas event. This was a national and international World’s Fair-style exposition,” said Jason Hays, the Vice President of Brand Experience at the State Fair.

The year was 1936. With the world looking on, fair officials knew opening day needed to be big. So to open the gates of Fair Park, they needed a key like none the world had ever seen before.

“It was bejeweled! Extravagant. Fifty-thousand dollars worth of jewels and gold,” said Jeff Cotner, Director of Security at the State Fair of Texas.

The nine-inch-long key featured a 14-carat diamond, four strands of pearls, and more than 400 other gems. “That was a piece of history – it opened the birthday of Texas,” said Hays.

When the fair closed its gates that year, the jeweler who made the key, Arthur Everts, proudly displayed it in his downtown Dallas store. It stayed there for years, until it disappeared in 1952.

Sixty-seven years later, the unsolved mystery has captured the imagination of fair employees.

According to the original police report, “the world’s most gorgeous and expensive key” was “thought to have been taken from the showcase.”

But the detectives notes said he interviewed many current and former employees and had no suspects.

Everts told a reporter there were no signs of tampering on the display case, saying “everyone thought the key was in our shop having a loosened pearl reset.” But when he checked the shop, it wasn’t there.

“It’s a big missing piece,” says Hays. That’s where the investigation ends and the theories begin.

Cotner, a former longtime Dallas Police detective, has a few ideas.

“It could’ve been somebody connected to the store,” he said. “They worked up this elaborate scheme to get the item removed, and they have it in their own personal collection.”

Hays thinks it may be more innocent than that. “It could be as simple as an accident,” he told CBS 11. “I wouldn’t go, necessarily, Liam Neeson and say ‘we’re gonna come find you.’”

There’s a chance that whoever has the key now has no idea of its history. No idea, that it could unlock one of the oldest mysteries of the State Fair of Texas.

## **ATTENTION CREW MEMBERS**

I have set up a website where you can purchase shirts and other things pertaining to the ship. I have tried to keep things priced at a reasonable rate. Please check out the Sea Tiger commissary.

Located at [www.shop.spreadsheet.com/seatigers-commisary](http://www.shop.spreadsheet.com/seatigers-commisary).

## **Book Report**

### That Time I got Reincarnated As a Slime

This is a manga series I recently got into. It is like Lord of the Rings in an online RPG form. The main guy gets killed in our world and is brought back in an alternate world. Where as the title suggests he comes back as a Slime. It starts out slow until you meet Veldora the Storm Dragon. He gives you details about this new world in exchange for joining you on your journey. You also meet goblins, dwarfs, elves. The only problem is that when they meet our Slime man, they call him a monster and are not afraid to say it to his slimmy face, which does come back to roar at them.

Meetings for the *USS Sea Tiger* are held every month  
at 1500hrs at Shady Oaks BBQ at Sand Shell &  
Hwy 35. Usually on the fourth Saturday of every month.

Monthly Roar! Newsletter is a monthly publication produced to inform members of upcoming events with the ship, with the region, and with the fleet. As well as things of interest everyone might like to know about. Information in this publication is obtained through emails and internet sites. The *USS Sea Tiger* is a non-profit organization affiliated with STARFLEET. Although we are Star Trek based, this club does enjoy and encourage anything that is SciFi related such as Battlestar Galatica, Stargate, Star Wars, X-Men, Superman, etc. This is an 'on line' publication for all those who have email. If requested a printed copy can be sent to you at your home address.
